

Daily Macro + India Dashboard

This Streamlit app tracks DXY, US 10Y, Brent, Gold, USDINR, India VIX, FII/DII cash activity, and Nifty using live public data connectors where available.

Run locally

```
pip install -r requirements.txt
streamlit run app.py
```

Deploy on Streamlit Community Cloud

1. Create a GitHub repo and upload these files.
2. In Streamlit Community Cloud, click **New app** and point it to `app.py`.
3. Keep `requirements.txt` in the repo root so dependencies install correctly.

Notes

- Yahoo Finance is used for most market instruments.
- FII/DII cash activity is parsed from a public market webpage and may need selector updates if the site layout changes.
- For production use, replace public scraping with a stable vendor or official API where licensing permits.
